

# DKA Yarn Dyeing Kit

Canning Jar

100% wool yarn

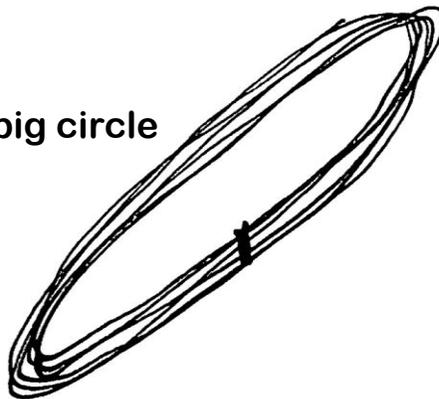

1 pack of powdered drink mix

1. Fill jar with 3 cups of hot water, mix in 1 pack of kool-aid.

2. Untwist the yarn into a big circle

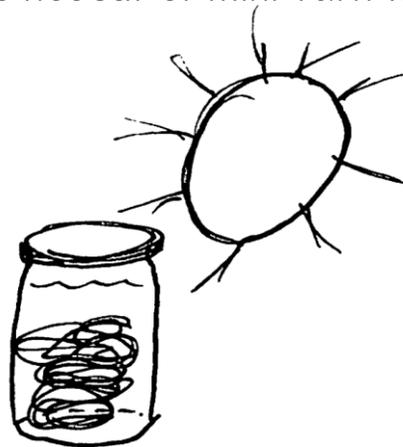

3. Slowly put the yarn into the hot water. If needed, add water to the jar if the yarn isn't completely covered. Do not stir or mix. Yarn will felt.

4. Put the lid on the jar.

5. Put the jar in a sunny spot.

6. Wait until the water is clear ..... it could be 2 hours .... It could be all day. Be patient!

7. Pour out the water and pull out the newly dyed yarn.

8. Rinse in cold water.

9. Hang to dry, this time, choose a place in the shade out of the sunshine.

10. Admire your handiwork! Yay, you just dyed your own yarn!
