Shop Hop 2014 “Different Stripes for Different Types”

By Aimee Pelletier

You’ve all taken one; a BuzzFeed quiz or a Cosmo quiz. We answer silly questions and then they tell us what type of person we are. We all know how accurate they are.

Well, after much scientific study, we’ve developed a quiz of our own to see what type of knitter/crocheter you are.

This simple scarf has a striping pattern decided by how you answer some questions. Your type will determine your striping pattern.

So, what type of person are you?

Quiz

1. Something looks not quite right in a pattern. You think...
 - a. The designer knows what she’s doing. I’ll trust the pattern
 - b. Throw it in a project bag and shove it in the back of your closet.
 - c. I’m smarter than the pattern. I’ll do it my own way
2. You have a little error in your work 50 rows back. No one will see it but you. You...
 - a. Rip back the 50 rows and re-work it.
 - b. Throw it in a project bag and shove it in the back of your closet.
 - c. Press on and say who the heck cares.
3. You have an extra stitch in your row. You...
 - a. Stay up until 2am figuring out where your count is off.
 - b. Head to your LYS waving a white flag.
 - c. Knit or crochet 2 together somewhere and press on.
4. You see someone leave a bag of hand dyed cashmere yarn at your local coffee shop. You...
 - a. Quickly track them down and happily hand the bag back to the knitter.
 - b. Quickly grab the bag, pull out the cashmere and fondle it before giving it back.
 - c. Quickly grab the bag and smile at your new found stash.
5. A coworker says “Oh my gosh! I love your cowl! Will you make me one?” You say...
 - a. “Yes, of course” and happily make it.
 - b. “Yes, of course” and quietly curse under your breath while you make it.
 - c. “Not on your life” and happily make the next thing for yourself in your queue.
